

Greetings and Welcome to United Community Health Center's website. We have been growing and developing within Storm Lake and surrounding communities since we opened our health center in March 2006.

United Community Health Center is privileged to serve our patients and community using a culturally diverse and experienced team of clinicians and other professional staff. We are also proud to have productive national, state, local and community partnerships that continue to enhance our ability to perform our work and thus increase our capacity to bring resources to you.

We are truly committed to provide comprehensive and culturally appropriate primary and preventive health care services for the entire family. Care received at UCHC is not free ó it is affordable. UCHC provides a way for patients to see a doctor on a sliding fee scale that doesn't rely on insurance status, although we are very happy to serve insured patients as well.

With busy schedules in mind, we have convenient hours of operation including evenings and weekends. Come visit us at 630 Ontario Street, Storm Lake. Please feel free to call us with your questions or comments or to make an appointment at (712) 213-0109.

United Community Health Center isn't the solution to the overwhelming health care crisis. We are however, a partner in finding the answer. Working together for healthí .. making a difference, one patient at a time.

Sincerely,

Renea Seagren, RN, MHA
Executive Director
